

Entegrity Smart® Multi-Family Onboarding Program

Drive Resident Adoption & Satisfaction

Implementing an access control solution in a multi-family property is much more than just buying and installing products. Our world-class Multi-family Onboarding Program will help property managers inform, engage and transition residents to ensure high adoption and satisfaction.

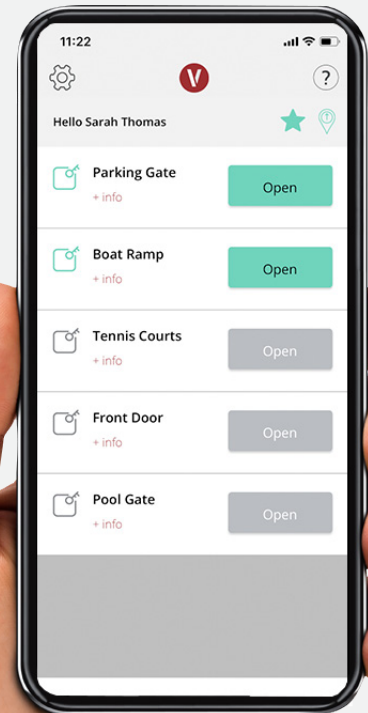

Entegrity Smart makes it easy to introduce new technology to your residents. Our program provides timelines, checklists and all the materials you need in order to install and start using Entegrity Smart™ Locks or Bluetooth Controllers.

Property Managers Receive:

- A dedicated onboarding manager
- Direct support during standard business hours
- Drafted communication for your residents
- Tips on how to best handle various situations
- Entegrity Smart team member onsite during installation
- Entegrity Smart Workshops for residents
- Account set-up and training for Property Management
- Assistance with preparing the installation team
- ...and much more!
