

Entegrity Smart®

Cloud Management Tools

Lite and Plus Service Options

Entegrity Smart cloud service lets you manage access anytime from your phone, tablet or laptop. Our simple user interface requires no special training, making it easy to grant and revoke access and view user activity. Whether you have 1 door or 1,000 doors, one location or many, everything is at your fingertips on any device.

Lite Service

A free, easy-to-use keyless entry service for sending Smartkeys. Perfect for where you need to control access to doors, gates or latches but don't need schedules or activity history.

Plus Service

A full-featured access control service that lets you issue ultra-secure, encrypted Smartkeys to anyone, anytime. Plus Service includes schedules, activity records, notifications and automatic updates. Available in 1 year, 3 year or custom service plans. And we warranty the electronics for as long as you have the Plus Service
